Health

Collective Health is the one-stop shop for all of your health benefits needs. They can help you monitor your claims, find local doctors, and simply understand how your benefits work. When you're trying to understand your medical, dental, vision, and HSA benefits—they've got your back.

Here's why you'll love Collective Health:

Go digital

Find everything you're looking for (and more) on our online portal and our mobile app.

Get all the info

Easily compare your health insurance options so you can choose the right one for you. Whenever needed, you can get a detailed breakdown of your chosen health benefits, track your spending, and more.

Ditch the jargon

We've translated the medical speak into plain ol' English so you can choose and use your health benefits with total clarity.

Skip the hold music

Always talk directly to someone who can help whenever snags happen — by phone, email, or chat (and without a robot).
